WDC2023 Bangkok, promises to be a conference with the usual high standards of its scientific content along with a great potential for entertainment and fun. The presidential banquet this year is proposed to be held on a special night cruise which will give you a panoramic view of the city of Bangkok.

World Dental Conference is organized by the World Dentists Association, with the aim and intention to provide an excellent international platform for academicians, researchers, dental practitioners and dental students around the world to share their clinical and research findings with the global experts.

The successful outcome of the 4 editions before this, has generated an overwhelming response from speakers, delegates, traders, professors and students, resulting in a big motivation for the organizing team to make this conference even bigger and better.

The scientific program looks very promising with a lot of renowned international speakers accepting to present lectures at the WDC2023.

The prestigious Excellence In Dentistry Awards will be presented at the Award ceremony at the WDC 2023. The awards are given to recognize excellence of individuals in various fields in dentistry and also to honour people who have made a difference in dentistry.
